PEARSON’S
MyITLab® for Office 2013

The way students discover Microsoft® Office 2013 should be just as easy—and just as cool—as it is to work in our new cloud-based, accessible, streamlined interface.

To help you move your students to this new environment, we’ve enhanced MyITLab for Office 2013 with powerful new features and the latest Office 2013 content. MyITLab enables the most open, realistic, high-fidelity simulations of Office applications to help students understand concepts more thoroughly. And, coming from Pearson, you can be confident you have an experienced partner that is committed to providing the content, resources, and expertise for the best digital learning tools—now and into the future. Break through to the next level of learning.

With MyITLab for Office 2013, you’ll be able to:

• Offer Office 2013 training and assessment tutorials in a new, easy-to-use design.

• Engage students with new cloud-based, HTML5 Office 2013 simulations that mirror the content in your Pearson textbook, do not require any downloads or installations, and can be translated into eight languages.

• Extend learning in, and beyond, the classroom—the Pearson eText and all simulations are fully compatible with any tablet, laptop, or iPad®.

• Empower all students to experience MyITLab using content that has full accessibility compliance with ADA 508 guidelines.

• Enhance your course with Grader projects you create from scratch, or borrow and assign projects from a global library of MyITLab users.

• Connect with other educators, the Pearson team, and a special Faculty Advisor Network to exchange ideas and advice on Office 2013, your courses, MyITLab, and more.

Break through to the next level of learning using the new MyITLab for Office 2013 with the support of the Pearson team. We’re with you every step of the way to make a seamless transition to teaching with Microsoft Office 2013.
